

Södertälje, Sweden

Södertälje Terminal occupies a prime position at the ice-free Port of Södertälje, a logistical hub for the industrial centres of Stockholm and the Greater Stockholm region.

Södertälje, Sweden

Södertälje Terminal occupies a prime position at the ice-free Port of Södertälje, a logistical hub for the industrial centres of Stockholm and the Greater Stockholm region.

■ Oils ■ Chemicals ■ Biofuels

The terminal offers convenient access to Baltic Sea product flows via three jetties. It also has direct pipeline links to other storage facilities within Södertälje Port. To complement its strategic location for import, export and distribution of products within Europe, the terminal has extensive expertise in the safe and efficient storage and handling of chemical products and bitumen. Södertälje Terminal has a range of tank capacities up to 5,000m³ across 37 tanks and offers potential for future growth.

Technical skills

Södertälje Terminal's strategic location is complemented by a wealth of technical expertise in the safe storage and handling of chemical products and bitumen. The terminal is managed and operated by an experienced and highly qualified team. Dedicated systems and specialist services include blending, heated tanks, customs and tax warehousing.

In addition to a flexible range of tank capacities and associated services, Södertälje Terminal can receive and redeliver product by sea, canal or road and offers pipeline access to other storage facilities within Södertälje Port.

Tank capacities

Capacity	Number
> 5,000m ³	1
> 2,500m ³	8
> 750m ³	1
< 750m ³	27

Total of 50,000m³ in 37 tanks ranging from 10 – 5,100m³
