

Stigsnaes, Denmark

Located in the Danish Straits, Stigsnaes Oil Terminal (SOT) is ideally located to service the growing traffic from Russia, the Baltic Rim and western Europe.

Stigsnaes, Denmark

Located in the Danish Straits, Stigsnaes Oil Terminal (SOT) is ideally located to service the growing traffic from Russia, the Baltic Rim and western Europe.

■ Oils

The terminal's 7 mild steel tanks have a combined storage capacity of 406,000m³ and are temperature controlled for the safe storage of fuel oil and vacuum gas oil (VGO).

Technical skills

Specialist infrastructure and services at SOT include tank capacities of 22,000m³ and 85,000m³ and pipeline connections to a single berth deep water jetty. In addition, the terminal

offers high loading rates up to 2,500 m³/hour together with tank-to-tank and in-tank blending to order. It can accommodate large shipping vessels, including Suezmax, Aframax as well as VLCC class tankers.

Tank capacities

Capacity	Number
85,000m ³	4
22,000m ³	3

Total of 406,000m³ in 7 tanks

Facilities facts

- 406,000m³ of storage
- Mild steel tanks
- Temperature controlled storage
- Tank-to-tank homogenising/ blending via mixers or jet nozzles
- Deep water jetty (VLCC)
- Max draft 16.2m, max LOA 335m
- Authorised Economic Operator – includes access to simplified customs procedures
- High loading rates between 2,000 – 2,500 m³/hour
- Max size vessel up to VLCC class tankers
- Potential to put into service one additional 1,150m³ heated tank
- Customs and tax warehousing
